

Observational log CHARA/VEGA 2015-10-30

Observers: Frédéric, Jana, and Norm
Instruments: VEGA & CLIMB (tracking)

Configuration:

Telescope	Beam	PoP
E1	B1	P1
E2	B2	P2
W1	B3	P1
W2	B1	P5
S1	B2	P4
S2	B3	P5

Beginning of the observation:

- 01.35 Arrived to the control room.
02.03 The history is repeating itself. It is too windy to open the domes.
03.47 The wind speed is larger than 20 kph and it is still growing.
04.08 The wind speed has grown above 30 kph.

End of the observation:

- 10.36 The wind speed is still around 30 kph. The weather forecast predicts further increase of the wind speed, so we are closing it for today.
10.40 Bonne journée.

!The time is given in UTC+00.
